

PARTNERS FOR JUST TRADE

building global partnerships through a just marketplace

OUR PRACTICES

- PJT is a non-profit organization and a screened member of the Fair Trade Federation and Green America's Green Business Network.

OUR PRODUCTS

Exceptional Quality

- PJT works with artisans who were already skilled artisans when we met them or people whom we have trained to produce products of high quality and durability.
- We have a close relationship with our producers and can assure you that our products are made with safe materials and produced in a healthy, friendly environment.

Unique

- Many of the original designs come from the artisans themselves and have historical and cultural significance.
- PJT tests the products and make sure they fit the American consumer market.

Ethical

- We are committed to building long-term, transparent relationships with artisans and follow the principles of Fair Trade.
- These long-term relationships provide opportunities for artisans to develop business skills and invest in materials and equipment.
- We are concerned with preserving cultural traditions and listen to the needs of our artisans.

Ordering

- PJT is committed to getting our customers what they need and are happy to accommodate your special needs.
- You can order using our website or through your own Purchase Order system.
- When we place orders with our artisans, we let you know so that you can specially order products.

Fulfillment and Pricing

- We fill and deliver your order in a timely manner.
- We offer our wholesale customers a discount off of our already low retail prices. The flow chart below shows how we price our products.
- Contact PJT today to find out how to become a store partner!
